

Announcement

SAOT Young Researcher Award 2022

Extended Deadline
Closing date for the
submission of applications
is March 31, 2022

For the twelfth time, the Erlangen Graduate School in Advanced Optical Technologies (SAOT) invites young researchers to apply for the SAOT Young Researcher Award (YRA) in Advanced Optical Technologies. The 100.000 € award is open to scientists with a proven record in optics, photonics and optical technologies.

Besides the prize money for research, the award allows for a twelve month research visit at Erlangen. The laureate will have the formal status of a guest professor and will give lectures and seminars for the doctoral candidates of SAOT. The maximum age at the date of application is 40 years.

Awardees

2008: **Prof. C. F. Kaminski**
Cambridge University, UK

2009: **Prof. A. Boltasseva**
Purdue University, USA

2010: **Prof. T. R. Meyer**
Purdue University, USA

2011: **Prof. Z. Zalevsky**
Bar-Ilan University, Israel

2012: **Prof. M. Booth**
Oxford University, UK

2013: **Prof. J. Home**
ETH Zurich, Switzerland

2014: **Prof. E. Berrocal**
University of Lund, Sweden

2015: **Prof. A. Jesacher**
Med. Univ. Innsbruck, Austria

2016: **Prof. D. Zibar**
Technical University of Denmark

2017: **Dr. R. Horstmeyer**
Duke University, USA

2018: **Prof. W. Cai**
Shanghai Jiaotong University, China

In 2006, the SAOT was established at Friedrich-Alexander University Erlangen-Nürnberg within the "Excellence Initiative by the German Federal and State Governments to Promote Science and Research at German Universities" to provide an interdisciplinary, structured education and research training program towards a doctoral degree (PhD) within a highly attractive research environment.

Announcement details:

SAOT Young Researcher Award 2022

Program

Optics is one of the key technologies of the 21st century. Friedrich-Alexander University Erlangen-Nürnberg (FAU) hosts a number of highly recognized institutes in the field of optics, representing fundamental as well as applied optics in the Faculty of Sciences, the Faculty of Engineering, and the Faculty of Medicine. In 2006, the Erlangen Graduate School in Advanced Optical Technologies (SAOT) was established within the "Excellence Initiative by the German Federal and State Governments to promote Science and Research at German Universities" to provide an interdisciplinary, structured education program towards a doctoral degree (PhD) within a highly attractive research environment. One of the key concepts of SAOT is the integration of guest scientists in both research and education. The Young Researcher Award in Optical Technologies will be awarded to an outstanding young scientist in the field of optics and photonics to spend a year in Erlangen and to pursue research in collaboration with SAOT scientists. To strengthen collaborations, it is also possible and desirable to bring own scientific staff to Erlangen. The laureate will interact with the graduate students of SAOT by giving lectures and seminars.

Conditions of Participation

The Young Researcher Award in Optical Technologies is open to young researchers with a proven record in optics, photonics and optical technologies. Research may be conducted in fundamental or applied optics, addressing research topics in physics, engineering or medicine. The maximum age at the date of application is 40 years.

Candidates should submit

- a curriculum vitae (max. 3 pages)
- a list of publications
- copies of the 3 most important publications
- a proposal for the research stay at Erlangen
- a letter of recommendation of at least 2 references

The prize winner will be selected by the SAOT Board of Directors.

Remuneration

The award is remunerated with 100.000 € to be used either for the personal salary of the laureate or for consumables or equipment related to the research. The award winner will have the formal status of a guest professor and is expected to conduct research in Erlangen, starting within one year after the award winner has been announced. The prize money can be used for one continuous stay or for several stays within four years.

Application

Please send your application to Prof. Dr.-Ing. Michael Schmidt, Director and Coordinator of SAOT, via e-mail: **saot-administration@fau.de**

Deadline for application for the 2022 Young Researcher Award in Optical Technologies is March 31, 2022.

The award winner will be announced in April 2022, with the award ceremony taking place July 8, 2022.
